Sept. 4, 1990

Dear Harold: Reb Sam Silver has done his good deed for the year by bringing about an exchange of letters between me and thee.

It was good to hear from you and I look forward to sitting down for a long nostalgic shmoos.

I go to W$_{a}$shington rather frequently and I hope we can meet.

My wife's illness - I don't believe you ever met Mary from South Sioux City, Nebr., - has put a crimp into my travels. She's had her colon removed and has to live with this severe handicap. She is still in a chemo therapy program for cancer and the outcome is always uncertain.

I want to hear more and more about you and your interesting life during these decades.

Until we meet,

My best to you.

Ben
